

CONSULTATION WORKSHOP: GUIDELINES FOR SOLID WASTE REUSE IN INDUSTRIAL PARKS

Wednesday, 15 February 2023

Venue: Fortuna Hotel, 6B Lang Ha Street, Ba Dinh, Hanoi

The event will be in English and Vietnamese (simultaneous translation will be provided)

Participants can also attend the event remotely by

<https://zoom.us/j/93766394969?pwd=bFNiY0pkbEljdTVWRVY5ZjYybDdpZz09>

Rationale

Decree 35/2022/ND-CP, which has been approved by the Vietnamese Government, provides criteria for EIP development and guidelines for the transition towards eco-industrial parks in the country. However, during the implementation period of such criterion has encountered a number of difficulties due to the legal barriers, including the incompatibility of several waste management regulations.

As regulated in Decree 08/2022/ND-CP, it is encouraged to reuse industrial solid waste in industrial park (Article 47). Non-hazardous industrial waste can be reused if it meets national or international standards for solid waste reuse (Article 65). As regulated by Decree 35/ND-CP, Ministry of Natural Resources will have responsibility to issue more detailed guidance on waste treatment, reuse and recycling (Article 58, Decree 35/ND-CP).

In order to ensure synchronous and effective law enforcement, efficient use of resources towards a circular economy and help to conduct the industrial symbiosis in industrial park, the Project is supporting for study of Reviewing the status of legislation on waste management in the industrial parks of Viet Nam and international standards for waste reuse as the background for the development of framework for guidelines to reuse waste in industrial zones.

Objectives

The “ Consultatation workshop on development of framework guidelines to reuse waste in industrial parks” will be organised to

- Present the study result on reviewing the legislation on waste management in the industrial and economic zones and introduce the draft guideline on reuse solid waste in industrial zones
- Discuss on proposed framework for guidelines to reuse soild waste in industrial zones to finalise and contribute as the input for detailed guidance on waste treatment, reuse and recycling which will be issued by MONRE (Article 58, Decree 35/ND-CP).

Targeted audience

- » Line ministries and government agencies
- » Park management authorities
- » Industrial Park developers
- » Tenant companies
- » National technical experts

Tentative Agenda

Time	Content	Who
13.30 - 13.45	Registration	
13.45 - 14.00	Opening speech	Ms Vuong Thi Minh Hieu, Deputy Director General, Department for Economic Zones Management, MPI
14:00 - 14:15	International experience on solid waste reuse towards a circular economy	Mr Alessandro Flammini, Project Coordinator, UNIDO HQ
14:15 - 14:35	Case study presentation on potential industrial symbiosis opportunities in selected IPs: - Present some typical waste reuse cases: potentialities and challenges	Mr Le Xuan Thinh, Director, VNCPC
14:35 - 15:05	Review the legislation status of solid waste management in the industrial park of Vietnam - Legal regulations for solid waste reuse - Current situation of waste management in the industrial parks in Viet Nam	Ms Le Hoang Lan, National expert
15:05 - 15:30	Introduce the draft framework for guideline to reuse solid waste in industrial parks	Ms Le Hoang Lan, National expert
15:30 - 15:45	Coffee Break	
15:45 - 16:45	Discussion	All
16:45 - 17:00	Wrap up and closing	Ms Vuong Thi Minh Hieu, Deputy Director General, Department for Economic Zones Management, MPI
